

Notifications

NEW

PREMIUM

For everyday workplace updates and alerts

Notifications is an enterprise-grade messaging solution that delivers corporate communications, critical updates, and real-time alerts across an organization's digital infrastructure, ensuring information reaches the right teams on time. Unlike traditional mass notification systems, Useful Notifications leverages existing displays, video walls, and audio systems within an organization. It is a secure, scalable communication platform that helps businesses improve engagement, compliance, and situational awareness.

Benefits

Share Organizational Messages	Deliver corporate announcements, operational updates, HR communications, and compliance reminders.
Schedule Messages	Schedule and automate notifications for production updates, shift changes, and process alerts.
Standardize Communication	Deliver uniform messaging across multiple devices, departments, and locations.
Reliable Software	Works on-premise with low latency, ensuring uninterrupted messaging even without internet connectivity.
Manage Messages From One Place	Schedule notifications from a single interface, streamlining organizational communication.

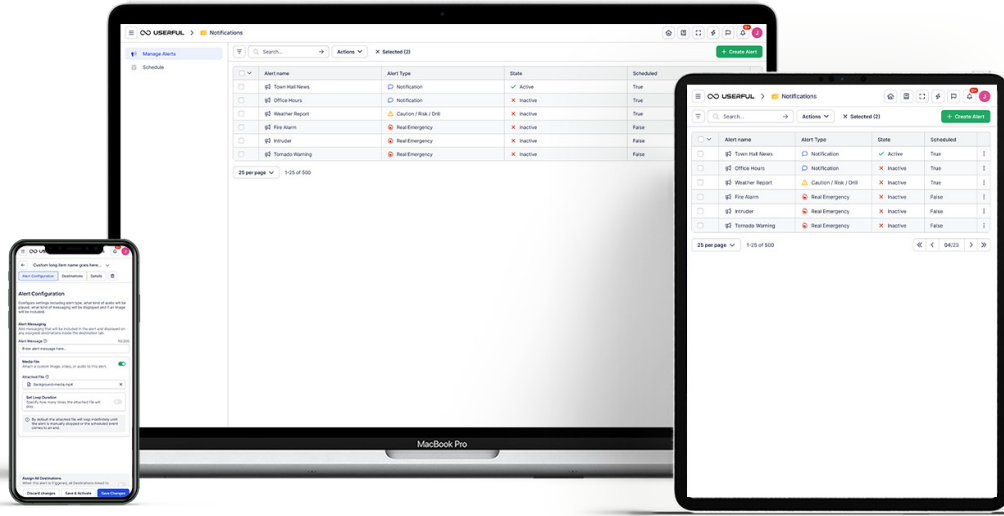

Features

Multi-Format Messaging	Deliver real-time notifications using text, images, video, and audio alerts for enterprise-wide communication.
Group Notifications	Send messages to specific teams, departments, or locations.
Message Scheduling	Set up recurring alerts, reminders, and updates for corporate and operational communications.
Text-To-Speech Alerts	Convert text notifications into spoken messages, ideal for hands-free environments like control rooms and production floors. Note that this is an upcoming feature.
Audio-Visual Messaging	Deliver alerts to digital signage displays, video walls, workstations, and Dante-enabled audio systems.
Role-Based Access Control (RBAC)	Secure messaging permissions defining who can create, approve, and distribute alerts.

Coming Soon: SMS, email, and social media alerts for expanded communication channels.

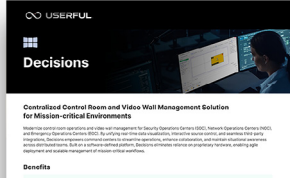

Supported Software Version:

Infinity v12.9 and above.
